our meeting took during the month

to see how we have been getting on

the "New Empire."

The increase in the volume of printed

matter has been the most striking

feature of the month. The number of

letters received has been 10, and the

number of letters sent has been 10.

There is unquestionably a growing

interest among the people of the

west in the correspondence of the

board. The best evidence of this

is the fact that the number of

letters received has been 10, and the

number of letters sent has been 10.

DEMOCRATIC NATIONALS IN NEW YORK.

In New York there is a degree of "impotence" between the special supporters of Cleveland and the special supporters of Hill that points to a probability of vigorous "fighting" on both sides. Hill's friends are making a strenuous effort to get a letter from Cleveland supporting his friends of the administration, and Cleveland's friends are making a strenuous effort to get a letter from Cleveland supporting his friends of the administration. The result is a "war of nerves" between the two camps. The result is a "war of nerves" between the two camps. The result is a "war of nerves" between the two camps.

"THE CHINESE MUST GO."

The anti-Chinese craze on this coast, according to its authentic historians, is of comparatively recent origin and seems to have been the result of a combination of factors. The first factor was the influx of Chinese laborers into the state, who were employed in the mining and agricultural industries. The second factor was the competition for jobs and land between the Chinese and the white population. The third factor was the prejudice and hatred of the white population against the Chinese.

"PREMIER" MILLS AND HIS "STYLE."

Roger Q. Mills of Texas, the democratic tariff editor, has a curious notion that his work of meeting difficulties that can't be solved by the tariff is a democratic one, and not a free trade one. He has a curious notion that his work is a democratic one, and not a free trade one. He has a curious notion that his work is a democratic one, and not a free trade one.

THE CASE OF COL. HAINES.

The recent arrest of Col. J. C. Haines, of Seattle, on a charge of conspiracy to obstruct the government in connection with the opium case, has excited a great deal of interest. The case is one of the most important in the history of the opium trade in the Pacific Northwest.

A SMALL PLASTER FOR A BIG WOUND.

A profane Eastern journal recently commented on the death of the late Senator John Sherman, and said that the death was a "small plaster for a big wound." The comment was a reflection on the administration of President McKinley.

THE FOLLOWING TELEGRAMS WERE SENT.

On September 30, 1898, the following telegrams were sent: "The Chinese must go," "The Chinese must go," "The Chinese must go." The telegrams were sent to the Chinese government and to the Chinese people.

EVADING EXCLUSION LAWS.

There is no difficulty at the East in evading the law which forbids the importation of Chinese laborers. The law is evaded by the use of "dummy" names and by the use of "dummy" addresses. The law is evaded by the use of "dummy" names and by the use of "dummy" addresses.
